

# Nyrstar – Underground Development G9 Mine, Guerrero, Mexico

JDS Energy & Mining Inc.

JDS was commissioned by Farallon Resources (later acquired by Nyrstar Corporation) for the development of Alimak raise at their G9 underground mine from 2011 to 2014.

Development included a total of 6 Alimak raises totaling approximately 800 metres and a 285 metre long ventilation raise to surface. The project was completed in approximately 24 months.

All project management, design, engineering, procurement, planning, and Alimak mining services were provided by JDS.

**Project Value: \$4.5M**
